

# Lean Thinking Workshop

This workshop engages participants in learning about the essential Lean Thinking tools and techniques that can be applied to every business to improve quality, reduce cost and save time.

## GET MORE DONE

### TOPICS COVERED INCLUDE:

- The purpose of business
- The Seven Deadly Wastes
- Workplace organisation
- Metrics and monitoring
- Data Collection Methods
- Problem Solving

This full day program provides you with skills and techniques that can be implemented immediately to a variety of workplace situations.

This workshop is a snapshot of the key Lean Thinking principles presented in a easy to understand way so that participants can identify opportunities for improvement that exist in your business

We work with people at all levels of the business.

#### Previous participants have said:

*"Just a few hours into the training lead me to solve a problem that had been a recurring problem for our business for years. Solving this problem saved us time and effort in searching for lost paperwork every month".*

Ben B, Production Supervisor, Windsor NSW

**Program investment: \$450 per participant (inc GST)**

**This training can be delivered to your team on your site.**

(for a minimum of 8 participants. Group discount applies)
